**JUST £12 WILL HELP TO LOOK AFTER THE DOGS AND CATS IN OUR CARE**

**Tommy** was born in 2001. He had a happy home all his life until his owner died, then he came into care and was really sad and bewildered. It was soon discovered that he had very bad teeth and that he was in the early stages of renal failure. His bad teeth have been removed and his kidney problems are being controlled with special food. He has found a foster home but his medical treatment will be ongoing for the rest of his life.

**Molly** came to us in the depth of winter having taken refuge in a cold shed with no one to care for her. She had a bad dose of cat flu and is now asthmatic. She has daily puffs on an inhaler as well as other medication and has a wonderful foster home. Her medical care is ongoing. She is a fantastic cat who likes nothing more than caring for kittens who are in need of new homes.

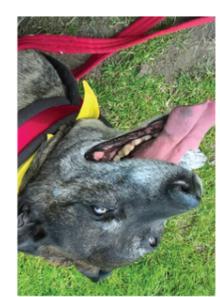

**Fliss**, was born in August 2014. She lost her loving home 2 years later and went on the run from the people she was rehomed with. During that time she had an accident which broke the base of her tail and injured her back. Thankfully she then came into our care. Her tail has mended and she is no longer in pain, but she walks oddly. She is a loving little cat who deserves the best we can give her. It may be many months before she finds her forever home.

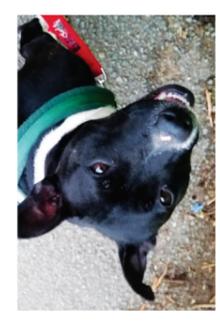

**Cass** is such a lovely, nice natured girl. A little timid until she trusts you, but has now learnt that everyone she meets through us just wants to love her. She has won the hearts of the many who walk her, taking her time though as her joints aren't as young as they were. She is on anti-inflammatory tablets to help with that. Also she had a couple of lumps on her mammary glands removed. One was benign but the other sadly malignant. We hope that if anything spreads further it will do so very slowly. She continues to enjoy walks with her fan club but we would dearly love her to be living in a nice home environment. We will continue to look after her medical treatment costs.

**Mabel** has been with us since 2011. She is a real character who once she puts her trust in you will love you back totally. She needs a home with no other pets but sadly no-one meeting this criteria ever asks to see her. She really enjoys outings with her regular walkers who think the world of her and who give her lots of fuss and treats. Mabel is ideally suited to live with an experienced, patient owner who will be calm and loving with her so she can soon get used to living in a home environment again.

**Anya** is a delightful small Staffy whose tail just keeps on wagging. She has been with us since March 2014 but like so many Staffies is sadly overlooked in favour of other dogs. Her many walkers love her to pieces as she is such a friendly and lovely girl. They can't understand why she is still with us. She takes Vitamin medication to improve her circulation.

Cut out, complete and return to Animal Welfare Society

**SPONSOR FORM**

Name .....

Address .....

Postcode .....

Tel No .....

Email address.....

Signed..... Date.....

**I would like to sponsor (please tick)**

Fliss     Tommy     Molly

**ABOUT CHEADLE ANIMAL WELFARE SOCIETY**

Our charity was set up in 1968 to take responsibility for the stray, abandoned and unwanted dogs and cats within Cheadle and the Staffordshire Moorlands area.

The Society ensures that each animal coming into its care receives any required veterinary treatment and it pledges that no healthy animal is destroyed.

Unfortunately we don't have our own facilities so all of our animals are boarded at private boarding kennels and catteries until new homes can be found for them OR THEY ARE CARED FOR IN FOSTER HOMES.

**Further details about sponsoring and also about the cats/dogs visit our website: [cheadleanimalwelfare.org.uk](http://cheadleanimalwelfare.org.uk) or telephone 01335 390369**
